EXPERIENCE

Kochava, Inc., Idaho — *Senior Software Engineer – Solutions & Integrations*

JULY 2019 - PRESENT

Mentor other team members to enable them to succeed and grow as software engineers, act as subject-matter expert in several products for other engineering teams, the client success team, and the QA team. Assist in the design and implementation of new features and services. Perform peer code reviews and integration/regression testing of code changes. Be responsible for code quality and best practices. Assist in prioritizing tasks originating from other engineering teams and the client success team. Lead small teams during project work. Architect project work taken on by the larger team.

Kochava, Inc., Idaho — *Software Engineer – Solutions & Integrations*

APRIL 2017- JULY 2019

Integrate new network partners within Kochava's ecosystem, solve issues found by clients, other engineering teams, and client success team members. Perform peer code reviews and QA testing of code changes.

EDUCATION

Eastern Washington University, Washington — *B.S. of Computer Science*

SEPTEMBER 2012 - JUNE 2017

Primary focus was object-oriented principles and design in Java, but Web services, relational databases, data structures and algorithms were covered as well.

SKILLS AND TECHNOLOGY

High-availability software
Highly concurrent software
CLI Tools
Kubernetes
GCP
Docker
Terraform
